The most trusted remote support solution

85 million

sessions annually.

4 Reasons to Choose Rescue:

Multi-Platform Remote Support

A single access point to all leading platforms: PC, Mac, iOS, Android — even unconnected devices using interactive video with Lens.

Simple to Use

Solve problems faster with every tool a technician needs — run diagnostics, take control, and transfer files with a single click.

Built Secure

Rescue is committed to security with annual audits, AES-256-bit encrypted connections and permission-based functionality.

Reliable

Rescue has continuously delivered industry leading 99.9% uptime.

What our customers are saying:

“Rescue lets us provide a higher level of support to our customers, and users are over the moon with it. It allows us to be more supportive, and they can just step back from their machine and let us fix it.”

- Michael O’Leary, Manager of Client Services, SNHU
